Expedition™ SPACE HEATER

The ***Expedition*** diesel heater delivers the ultimate in clean, efficient heat and requires no electricity. A diesel heater means low maintenance, simple to light and operate, with no chopping wood or hauling heavy propane tanks as with other types of heaters. On low, a five gallon jerry can will last 25 hours on readily available diesel fuel. There's no getting up at night to feed a wood stove or change a propane tank and harmful exhaust gases are vented up an exhaust stack for safety. All steel construction means a durable and reliable product that will provide years of trouble free service. ***Expedition*** heaters will keep you warm and comfortable in your cabin, garage and workshop or in a tent when you're hunting, fishing and you need portable or emergency heat.

The ***Expedition*** measures 38cmW X 46cmD X 76cmH and weighs 18kg without an exhaust stack. It uses a vaporizing burner and is controlled by a fully adjustable fuelregulator. The heat output can be adjusted from 10,000 BTU/h to 30,000 BTU/h (1.13Ll/h fuel consumption on high). The ***Expedition*** also incorporates multiple operational safety features such as a patented non flooding burner, fuel regulator with overheat protection, and a fuel shutoff valve. A galvanized heat shield is attached to the heater to protect the user from incidental contact.

Floor Size Heating Ability	Low Setting	High Setting
Room with poor insulation, temperate/mild weather	28sqm	83sqm
Room with poor insulation, cold weather	22sqm	74sqm
Room with avg. insulation, temperate/mild weather	32sqm	111sqm
Room with avg. insulation, cold weather	28sqm	83sqm
Tent with no insulation, cold weather	9sqm	22sqm

*General guideline for portable structure/building with 2.4M ceiling only. Other factors like quantity and size of windows and exterior walls will affect above numbers.

Features:
Rugged, Durable Design
Heating and Stove Capabilities
No Electricity Required
Certified to CSA/UL Standards

Includes:
Galvanized Steel Heat Shield
4" Exhaust Opening
Natural Draft Vaporizing Burner
Primer Bulb
Burner Cleaning Tool
Steel Construction
Fuel Regulator
Draft Regulator

Optional Accessories:
Fuel Jerry Can
4" Exhaust Kit
10 Feet Fuel Supply Line with Filter

ALL HEATING ABILITY IS BASED ON CANADIAN COLD WEATHER WHICH CAN FALL TO -30C DURING WINTER

ITR Burner Technology is used by the US Military
